To whom ever it may concern; However My Name is Theresa Belle And I have two little girls Kaoshca age 10 and Gloriana age 7. A few months ago we had stayed in your Shelter for at least 30 days up stair. The first day enter into the shelter I was kind of worried that your rules might not be what I want but I learn over the 2 weeks being their was for the best of me and my daughters. I thought to my self that the Lord God had open a door where he wanted my family to be in a Safe community plus grow in a good way of learning more life skills to better my self daily. Our room was large and very clean plus I felt so special to be a part of Salvation Army temporary shelter program I found out that many people in the shelter have different issues but we all needed-

help no matter what. I also found out that if you don't ask for help there you simply would not get what you're in need of. The case workers were all very helpful and very hard workers. They made sure that all homeless people would have plenty of food, beds, clean rooms, dishes, a stove plus a refrigerator to store our food while temporarily staying there. My stay was a change. I needed to write my letters on how I view how others treat me and my love ones. We had days we did not want to have, but as any other parent, to be on top, you had to work hard every day to get the job done. For example - My case worker was very helpful in all my work being done, so I made sure I did my best to do what she wanted me to do in finding a job, reporting my income, making sure I went to at least two -
